

Gear Oil GL 4 80W90

Description

Petromark's Gear Oil GL4 80W90 is blended using high quality mineral base oil and a specially selected additive package. This ensures good anti-wear characteristics, oxidation stability and anti-corrosion properties.

Applications

Gear Oil GL4 80W90 has been specially developed for synchromesh manual transmissions and combined manual transmission drive units where the higher EP properties would be injurious to synchromesh cones.

Performance

- API GL 4
- MIL-L-2105
- ZF TE-ML 08

Advantages

- Excellent low temperature performance
- Protects Synchromesh Cones
- Ideal for Synchromesh transmissions

Typical Values	Visc @ 40°C (cSt)	Visc @ 100°C (cSt)	VI	SG @ 20°C (kg/l)
